Resource Systems Group named one of the Best Places to Work in Vermont

RSG ranks 4th in the State of Vermont

White River Junction, VT – December 2006 – RSG was recently named as one of the Best Places to Work in Vermont, ranking 4th in the state in the small/medium size company category. This first annual program was created by *Vermont Business Magazine*, the Vermont State Chamber, the Vermont Department of Labor, the Society for Human Resource Management-Vermont State Council, the Vermont Department of Economic Development, Best Companies Group and sponsored by HMC Advertising

This survey and award program was designed to identify, recognize and honor the best places of employment in Vermont, benefiting the state's economy, its workforce and businesses. The Best Places to Work in Vermont program is made up of 10 small/medium-sized companies (15-99 employees) and 4 large-sized companies (more than 100 employees). (Name of Company) has been named one of the Best Places to Work in Vermont in the (small/medium or large) category.

To be considered for participation, companies had to fulfill the following eligibility requirements:

- Be a for-profit or not-for-profit business;
- Be a publicly or privately held business;
- Have a facility in Vermont;
- Have at least 15 employees in Vermont.

Companies from across the state entered the two-part process to determine the Best Places to Work in Vermont. The first part consisted of evaluating each nominated company's workplace policies, practices, philosophy, systems and demographics. The second part consisted of an employee survey to measure the employee experience. The combined scores determined the top companies and the final ranking. Best Companies Group managed the overall registration and survey process in Vermont with assistance from ModernThink LLC, who analyzed the data and used their expertise to determine the final rankings.

About RSG Inc. – RSG specializes in planning, analysis, and management of business, infrastructure and natural resources. We believe that high-quality, objective analysis is a prerequisite to resolving complex problems. More than just analysts, scientists, and technicians, we're communicators – our study results are clear, concise, and directly applicable to a client's particular questions and challenges. Our solutions are creative and grounded by 20 years of experience with clients as large as federal government agencies and FORTUNE 500 companies or as small as local interest groups and municipalities.
