RSG Presented with *Deane C. Davis Outstanding Business of the Year Award*

Burlington, VT — May 2007 — As part to the opening ceremonies to the Vermont Business EXPO earlier this month, Governor James Douglas presented RSG with the Deane C. Davis Outstanding Business of the Year Award.

Named after former Governor Deane C. Davis (1900-1990) and co-sponsored by the Vermont Chamber of Commerce and Vermont Business Magazine, the award is given to the Vermont company that embraces the unshakeable values that Davis brought to his office: enhancing the economy and championing the environment with the help of business and satisfied employees.

Now in its seventeenth year, the award is cloaked in secrecy, with three finalists hoping to hear their name at the moment the winner is announced. This year's finalists include Pizzagalli Construction Company and Symquest Group in addition to the winning company, Resource Systems Group, Inc.

Past Deane C. Davis Outstanding Business of the Year award winners include Hubbardton Forge, NRG Systems, Wild Apple Graphics, Waitsfield & Champlain Valley Telecom and IDX Corporation.

RSG promotes respect of the natural environment in Vermont and around the country. These include sustainable transportation, noise, air and renewable energy. In the area of renewable energy, RSG's Chairman is involved in the national dialogue to define how renewable energy certificates will be used for a carbon trading market. Within transportation, RSG occupies a critical niche in the world of congestion pricing, an evolving practice that gets commuters out of their single occupancy vehicles and into carpools or on mass transit.

RSG, Inc. is a leading consulting company that was established in 1986 to provide clients with high quality, objective analysis for the management of business, infrastructure and natural resource. Based in White River Junction, Vermont, the firm also has offices in Burlington, VT, Nashua, NH and Chicago, IL.
