FOR IMMEDIATE RELEASE

RSG WINS AMERICAN COUNCIL OF ENGINEERING COMPANIES (VT) AWARD

(RSG Inc., White River Junction, VT)—The American Council of Engineering Companies of Vermont (ACEC/VT) announced the winners of the Engineering Excellence Awards competition and Resource Systems Group received a Certificate of Merit in the Special Projects category for its planning, design and project management work on the Burlington waterfront.

In 2006, the City of Burlington received a \$3.5 million earmark to implement improvements to traffic circulation, parking, bicycle and pedestrian connectivity, stormwater management and aesthetics as part of Waterfront's ongoing revitalization efforts. The identified goal of this planning, design, and construction project, which was administered under the VTrans Local Transportation Facilities framework, was to improve multimodal access to the waterfront while maintaining the important aesthetics of a lakeside public area.

"The project area is a hugely popular destination for both residents and tourists." said David Saladino, RSG Senior Consultant and project manager of the three-year project. "It was critical that this project be designed and constructed as a showpiece for the City since it's located adjacent to the ECHO Center, Union Station, the Burlington Bike Path, the Burlington Boathouse, and Waterfront Park."

ACEC/VT annually sponsors the Engineering Excellence Awards Program to showcase exemplary engineering projects completed in Vermont. A panel of judges comprised of distinguished planners, engineers and construction professionals selects award winners from entries. This year's winners will be honored at the ACEC/VT Engineering Excellence Awards Banquet at the Capitol Plaza in Montpelier, VT on June 2, 2011.

About RSG. RSG, celebrating its 25th anniversary this year, provides insightful consulting services for the planning, analysis and management of transportation, natural resources, technology and business. Since its founding in 1986, the firm has offered high-quality, objective data analysis to serve a broad portfolio of public and private sector clients locally, regionally and nationally. RSG is a 100% ESOP company and has been a "Best Place to Work in Vermont" company since 2006. With headquarters in White River Junction (VT), RSG has offices in Burlington (VT), Chicago and Salt Lake City, and has an international consulting presence.
