FOR IMMEDIATE RELEASE

RESOURCE SYSTEMS GROUP (RSG) RELOCATES CHICAGO OFFICE
More Room to Accommodate a Growing Office

WHITE RIVER JUNCTION, VT –RSG has relocated its Chicago presence to a larger office suite in the LaSalle-Wacker Building. Since the 2003 opening in Chicago, RSG has almost tripled in staff and increased revenue four-fold. The new office suite has room for additional staff as well conference areas, support amenities—and a terrific view. The office continues to be managed by Mr. Stephan McCurdy, director in RSG's Market Research and Consulting practice.

“Opening a larger space will have an immediate effect on our capacity to manage the growing business. Our market research and consulting practice, which focuses on the strategic applications of advanced analytics has rapidly expanded, and the new space will allow us to best address our Fortune 500 clients’ needs as well as grow our public sector presence in the region,” said Clayton Adams, CEO of RSG.

The new office is still centrally located in Chicago’s downtown which allows both staff and clients access to a multitude of transportation options. A downtown Chicago location is an important site factor for RSG which counts the Chicago Transit Authority as a client as well as several Fortune 500 companies in the region such as John Deere and Motorola.

About RSG. RSG, celebrating its 25th anniversary this year, provides insightful consulting services for the planning, analysis and management of transportation, natural resources, technology and business. Since its founding in 1986, the firm has offered high-quality, objective data analysis to serve a broad portfolio of public and private sector clients locally, regionally and nationally. RSG is a 100% ESOP company and has been a “Best Place to Work in Vermont” company since 2006. With headquarters in White River Junction (VT), RSG has offices in Burlington (VT), Concord (NH), Chicago and Salt Lake City, and has an international consulting presence.
